Relevant Experience

Software Engineering TA | General Assembly
September 2019 - Present
- Coach students in front-end (HTML/CSS, JavaScript, React) and back-end (MongoDB, Node.js, Express, PostgreSQL, Flask) best practices
- Foster positive coding habits using feedback and accountability
- Mentor students in time management, prioritization, organization

Software Engineering Fellow | General Assembly
June 2019 - September 2019
- Utilized front-end (HTML/CSS, JavaScript, React) and back-end (MongoDB, Node.js, Express, PostgreSQL, Flask) engineering fundamentals during a 12-week training program
- Built 4 applications with emphasis on application flow, logic, and comments
- Envisioned, designed, coded, and debugged full stack applications individually, in pair programming, and on a small team

Independent Projects

Connect 4!	Couch Potato	LitShare
A classic game made digital using HTML, CSS, and jQuery. Game logic incorporates mathematical insight about the game board into logic for winning.	Couch Potato is an app where you and your friends can review movies. Incorporated OMDb API, Bootstrap, and Mongo / Express / Node.js stack.	LitShare is a lending library app where you can find books you want to read in your area and borrow them. A PostgreSQL, Python, Flask, and React app.

Client Centered Experience

Employment Coach | Center for Changing Lives
April 2018 - May 2019
- Envisioned, drafted, updated, and maintained 10-week Job Readiness Training and Digital Literacy Program
- Built trusting and mutually accountable relationships with co-workers and members
- Used SalesForce to track interactions with clients, write case notes, and keep client information updated

Education

Northwestern University
Latina/o Studies, B.A.
English - Creative Writing, B.A.
Honors:
Phi Beta Kappa | Mellon Mays Undergraduate Fellow | Jack Kent Cooke Foundation College Scholar

---

I build software that serves a social purpose.

Relevant Skills
